SUMMARY

I am an ambitious Software Systems student passionate about application development and problem-solving. I enjoy building user-centric software with modular design and thrive in collaborative environments. I aim to contribute to mobile or desktop application development while continuously enhancing my technical skills.

TECHNICAL SKILLS

- **Programming:** Dart, Java
- **Mobile Development:** Flutter (Widgets, State Management – Provider/ Bloc).
- **Backend & APIs:** REST API integration, Firebase Services
- **Database:** Firebase, Hive, MySQL
- **Tools:** Git, GitHub, Android Studio, VS Code
- **Core Concepts:** Clean Architecture, Responsive UI, Debugging

PROJECTS

Weather App – Flutter

- Built a real-time weather forecasting app with live REST API integration and optimized UI rendering.
- Improved API response handling to reduce load time by 20–30% and increased reliability with error-handling logic.
- Enhanced user experience under low-network conditions by reducing failed API calls by 40%.
- **Tech Used:** Flutter, Dart, REST API, JSO

Musify – Spotify Clone (Flutter)

Music Streaming Mobile Application

- Developed a Spotify-inspired music streaming app using Flutter and Dart.
- Designed responsive UI with playlists, albums, artist screens, and music playback controls.
- Implemented state management and optimized app performance for a smooth user experience.
- **Tech Used:** Flutter, Dart, Provider/Bloc, Audio Player, Hive/Firebase.

Professional Company Web Service

Professional front-end web application

- Developed a professional front-end web application presenting company services and information
- Created multiple web pages such as Home, About, Services, Courses, Profile, Login, and Feedback
- Ensured consistent design and smooth navigation throughout the website

EDUCATION

B.Tech Information Technology

Erode Sengunthar Engineering College

- Mobile Application Development
- CGPA - 8.00

09/2023 | Erode, TamilNadu

HSC

Government Higher Secondary School

- 60%

04/2023 | Krishnagiri, TamilNadu

CERTIFICATES

- Generative AI
- Mobile Application Development Using Flutter
